Recently shifted to 2-inch pots, the following seedlings are now offered for late APRIL delivery, which will give them three months of Florida Sunshine, plus regular feedings of Ryerson Orchid Food, before you receive them.

Order and pay for your seedlings now, not only for the best selection, but to take advantage of these prices. Any seedlings that are still for sale after April 1st will be priced: \$2.50 per single seedling; \$1.50 per seedling in quantities of twenty or more.

Your seedlings not only will be set aside, marked: "SOLD"; but an Order Number, corresponding with the one in my order book, will identify them as yours. When you come down this Winter, visit and inspect YOUR seedlings!

In case you're still among those who feel Orchids increase in value slowly, compare this list with the "Bare Root Out of Community Pot" list sent you last Summer. You'll see how they've doubled in value in six months, even as quantity sales.

Any FOUR seedlings in 2-inch pots (Your Choice).....\$ 6.00
Any TEN " " " " " " " " \$12.50
20 or more " " " " " " " " @ \$1.00 per seedling.

- #67 - LC NEW YORK ALBA X C. LABIATA ALBA - White-Colored Lip for Fall season.
- #68 - C. TITRIANAE X LC PRINCESS PRUDENCE - Bold, vivid; many with petal tips matching crimson-purple lips. Fall-Winter.
- #647 - C. NELL MONTGOMERY X C. SWAN - Top quality Whites for late Winter-Spring.
- #648 - C. LABIATA, SNOW WHITE X C. BEN NEVIS - Free flowering Autumn White.
- #651 - C. RITA SLADDEN X C. BARBARA BILLINGLEY - Winter holiday season Whites.
- #659 - LC LILY PONS - Has the productivity of Canhamiana alba with improved shape.
- #660 - C. ELEANORE ALBA X C. PRISCILLA ALBA - June White-Colored-Lip.
- #671 - LC MAX PALM X LC DERRYNANE - Large, brilliantly dark. Should bloom twice yearly.
- #672 - LC PRINCESS PRUDENCE X LC SOUTH ESK - Showy rose-lavender; very dark, open ruffled lip; Late Fall-Winter.
- #674 - LC ELISSA X LC SOUTH ESK - Elissa - one parent of Lc Max Palm - is a fine producer of large, showy medium lavender flowers with darker lips. Varied season.
- #675 - C. REMY CHOLLET X BC HARTLAND - Hartland - pollen parent of Blc Marion Ryerson - should make this a twice-yearly producer of fine, big, brilliant blooms.
- #Ph-7 - PHALAENOPSIS FIELD'S # 407 X P. DORIS - Sprays of round, heavy textured White "Moth Orchids". Winter-Spring. (See Page N, "LET'S TALK ABOUT PHALAENOPSIS")
- #V-9 - VANDA MANILA X V. CLARA SHIPMAN FISHER - Round, well held Sanderiana hybrids, smaller in size but producing greater quantities of flowers.
- #V-63 - V. BURGEFII (SANDERIANA X SUAVIS) - Ever flowering tan to rose clusters. If you've never tried strap-leaf Vandas, read Page Q.
- #139 - B. NODOSA X L. CRISPA - Strong growing novelty Bl cross. White-Col-Lip.
